## Office Action Summary

Art Unit: 2839

Claim 39, lines 5, 7, 8 changes to recite "card body means" on each line suggested to improve clarity.

The terminal disclaimer filed on May 29, 2001 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 5,411,405 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claims 34-39 and 68-79 are rejected under 35 U.S.C. 103(a) as being unpatentable over Aldous '404 in view of Clark, Hardesty and Research Disclosure (RD).

It would have been obvious to combine the Aldous cards of Figs. 3, 5, 7, 9, 8, 9, 15 with a removably attached adapter in view of the secondary references. In particular, see Aldous, fig. 7 assembly with cabled adapter (DAA) 98. An adapter like those of any one of the secondary references would be equivalent to such cabled adapter.

Applicant's arguments filed with the amendment and pertinent to the above rejection have been fully considered but they are not persuasive.

The PCMCIA card ends 46, 58, 72 of Aldous figs. 7, 9, 10 like that of applicants, fig. 1 extend outwardly of the computer housing, therefore arguments regarding space limitations should not be found persuasive. The part 56 of Aldous, fig. 8 could be made as large as is necessary for receipt of the mating connector in recess 36. Also obvious to use an adapter with a communication card for any of the advantages disclosed, for example, see RD, addition of a ferrite tube or change to a right angle plug-in direction. Basically using Aldous, fig. 7 it seems

Art Unit: 2839

obvious to combine parts 52, 50 into a single housing like those of the secondary references. For claim 68, note Hardesty "recesses" 54, 54'.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to N. Abrams at telephone number (703) 308-1729.
